

## Computer Device for 2021

We have some basic specification requirements to ensure that the students have a device that best serves their needs and the teachers' ability to assist them at Baradene College.

- Windows 10
- 2 in 1 device – laptop and tablet
- Active touch screen with stylus/pen
- 8GB RAM recommended
- Approximately 6 hours of battery life
- Minimum screen size of 12”

Please see the Harvey Norman Flyer for our suggested devices for 2021.

### **Software:**

Under the Baradene Schools licensing agreement, we have set up Office 365 accounts for each student. Students will be able to download Office 365 (Word, Excel, PowerPoint, OneNote etc.) onto their device as part of the Baradene package.

### **Support:**

At the beginning of the school year our New Era Technicians will help your daughter set up her device with a school email account, username and password.
