

Lauren Dressler de Vargas - Brazil

My name is Lauren and I'm 17. I'm Brazilian and I studied at Baradene for two years. I'm currently in my first year at the University of Melbourne, the best Australian university, studying politics and criminology with intentions of going to law school. After finishing my studies I want to be a lawyer, entrepreneur and to travel the world. Baradene definitively helped me achieve academic excellence and because of it I was granted a full scholarship for the three year duration of my course, which is no easy feat. I highly recommend studying at Baradene a place with excellent teachers and staff, where you will feel welcomed and supported. You will also make long-lasting relationships and have an incredible experience.
