

Hanna Stiel and Jule Soulier – English Transcript

We are here with Juli and Hannah. Good morning.

Hi

Hi

Have you enjoyed your schooling at Baradene College?

Yes, I've had a lot of fun, the teachers are really nice and the environment is very pretty.

I've also had a lot of fun.

Very good

What were your favourite subjects and why?

My favourite subject was dance because we cannot do that at German schools.

My favourite was Design and Photography, we took photos and designed magazine covers.

Haven't taken part in any extra-curricular activities, for example, music, clubs or sport teams?

Unfortunately we haven't had the opportunity because of Covid 19 but there is a big choice here.

Have you felt part of the Baradene Community?

Yes definitely, you are really welcomed here and everyone is nice and it is wonderful. I have felt part of it from the beginning.

What has surprised you most about New Zealand?

I have been most surprised that the teachers are really open that you can have fun with them and the teaching is a lot more exciting than it is in Germany.

I have been surprised by the everyday life of the students and the open (accepting?) environment.

Would you recommend Baradene College to your friends at home?

I would certainly recommend it because you can have many new experiences here and you can make a lot of new friends

Yes, definitely, it is really great here. As I've said, everyone should have this experience if possible.

What would you miss most about New Zealand when you go back to Germany?

I would miss my friends and a few teachers.

Yes me too. Our friends are really kind and the teachers are truly nice. The school's facilities are really nice and nicely designed.

Thank you very much.
